LETTERS TO THE EDITOR

Atlanta, Ga.
Nov. 15, 1951

Dear Mrs. Semmler:
I am enclosing a check for a two year's subscription to the News-Bulletin.

We feel quite at home here in Atlanta with Mokena news coming to us each week. We are very happy here, but all of us have a deep affection for Mokena and its friendly people. The girls are looking forward to next summer when they hope to visit with their many friends in Mokena.

If ever you come south, don't fail to look us up. We have had several visitors from Mokena and are expecting the Milton Gethers for Christmas.

We're enjoying the interesting news items in the News-Bulletin, and may we wish you and your staff continued success in publishing a grand "little" newspaper.

Regards from
The Steeles
Margaret V. Steele

Thanks for all your well wishes and glad you want the News-Bulletin coming your way. Hope we can continue to keep it interesting.

Homestead, Fla.
Nov. 16, 1951

Dear Mrs. Semmler:

Enclosed you will find a money order for our News-Bulletin. I hope you people are all well and happy as we are.

We are having gorgeous weather, am sending weather reports of last two weeks. We had the hottest summer this year on record, but have had a nice breeze with it all the time. You see the breeze comes from the south or south east, either coming off the ocean or from the Gulf sometimes. Our 98 degrees down here isn't as hot to us as 85 up there. We have been bothered more with mosquitoes this year than any since coming to Florida and reports said it was the worst in years. But we have a big yard spray and after every rain spray with 5% DDT and it certainly gets rid of them. Sprayed by plane, also the town has a truck that sprays.

This is the nicest time of the year tho from now till May when we have our rainy season. Beautiful sunny weather every day. Our Passion vine is gorgeous with blossoms, also the Honeysuckle and other vines. Poinsettias have been blooming for two weeks and will continue till cut back in March or April. Many bushes higher than the roof of a house. Our orange trees are loaded as is our one grapefruit tree and two tangerines, almost ripe. Have been using our limes all summer. We only planted these trees Jan. 14, 1949 on Rene's birthday. Also many roses in bloom.

First year since 1931 that not even a single small hurricane hit the coast. Guess all the high winds and tornadoes hit everywhere but here.

Harland (Merrell), Mary and little boy were here one Sunday afternoon on their way to the Keyes. We sort of planned to go fishing sometime together. Best fishing time is in winter anyway. Two we caught a lot of nice large mouthed bass about 300 miles north of here where we spent our vacation. Rene had one 8 1/2 pounds. Had his picture in the Tampa paper, as did Tiny. We were at Lake Panasoffkee about 75 miles from Tampa.

We were sorry to hear of the death of Mrs. Hall, grandma, as we called her.

Sincerely,
Mrs. Rene Guindon

Mrs. Guindon enclosed a weather report for the first 14 days in November with the lowest being 76, the other days in the 80's, with a note "cold spell up north". How well we know it! But it was nice and cold.

APPOINT JOLIET ATTORNEY FOR DISTRICT 210

The Board of Community High School No. 210 in their meeting at New Lenox last Wednesday night took up several matters of importance to the district. Secretary J. Earl Robinson advised the Board that he has received a communication from the Bloom Township High school advising that beginning the school year in September, 1952, the Bloom High school would no longer be able to accommodate freshmen students from this district. They will continue to accommodate the sophomores, juniors and seniors, but transportation will have to be furnished for these students. The Board intends to have a transportation set up for the entire district by September of 1952.

Because of pending matters requiring legal attention, the Board decided to appoint an attorney for the district at this time. Dale Nicholson of Joliet was appointed as attorney for the district. It was also decided to call two special meetings on November 28 and December 5 to interview various architects who have contacted the Board since the organization of the district. Inasmuch as there are a number of architects interested, the Board decided that it would be necessary to hold two meetings to interview all applicants.

Erwin Yunkers Back From Dealers Trip

Mr. and Mrs. Erwin Yunker of Orland Park enjoyed a tour through the east recently when they were guests of the Massey-Harris farm implement tour.

The Yunkers left Chicago a week ago Sunday where they joined the Chicago dealers. They went by train to Batavia, N. Y. where the 7-Clipper combines are made. From there they went to Niagara Falls and then to the Brantford, Ontario branch where the Massey-Harris plows, discs, drags and other machinery is made. There also they were escorted through a modern foundry.

Leaving Brantford, they went by bus to Toronto where they saw the complete making of the Nos. 26 and 27 combines and the Hay balers being made.

They returned to Chicago by plane last Thursday after having a wonderful trip.

ORLAND BOY MISSING

Much concern is being felt in Orland Park and by Mr. and Mrs. Aaron Simrell because of their son Ronald who is missing.

Ronald, better known as Buddy, has been a student in the Orland Park Community High school gym Thursday morning, November 15. He is 15 years old five feet nine inches tall, wore a gray jacket, gray sleeveless sweater, solid red color flannel shirt, blue jeans, brown shoes and was bareheaded. He has brown wavy hair, blue eyes and weighs 145 pounds.

When he did not return home that evening as usual his parents became alarmed and contacted his classmates to see if they knew of his whereabouts. They have no clue as to why or where he might have gone, and would be most grateful if anyone has seen him or knows where he is to notify them at Orland 21R1, or call at their home on 104th avenue and 167th street.

Mrs. Paul Schmidt, at the request of Gail Compton, of the Pet Shop, a television program, appeared on their show Saturday. She was called because she is a well known breeder of chow dogs. She appeared with Champion Linnchow, "Chung-Kee" and also an 11 weeks old pup, and told about her kennels and the Chow-Chow breed.

Some of the dogs from the Schmidt Kennels were shown at the Chow Show, Sunday, at the Navy Pier, where 16 other breeds of dogs were shown.

There were sixty-four chows there from all over the country and the Schmidt's took their share of the honors.

OUR DEMOCRACY—by Mat

THANKSGIVING

IN GRATITUDE FOR BOUNTIFUL CROPS AFTER THEIR FIRST WINTER OF FAMINE, THE PILGRIMS HELD A FEAST OF THANKSGIVING IN NOVEMBER OF 1621

IT IS IN THAT SPIRIT OF GRATITUDE THAT WE SHOULD CELEBRATE THANKSGIVING TODAY—GRATITUDE FOR OUR MATERIAL WELL-BEING, BUT DEEPER GRATITUDE THAT THE RELIGIOUS SPIRIT AND SENSE OF PERSONAL RESPONSIBILITY THE PILGRIMS ESTABLISHED IN AMERICA ARE STILL OURS TO ENJOY.

THEY ARE ALSO OURS TO MAINTAIN—SO THAT OUR CHILDREN, AND OUR CHILDREN'S CHILDREN, WILL ENJOY THOSE BLESSINGS—AND BE THANKFUL.

Do You Want to Give Thanks After Thurs? Drive With Care

Thanksgiving day is set aside to count our blessings, not our traffic fatalities. Chas. M. Hayes, President of the Chicago Motor Club cautioned motorists at the approach of the mid-week holiday.

The grim lessons of recent holiday carelessness should ride with every motorist over the extended weekend. The mounting accident rate in Cook County is magnified during the heavy holiday traffic, Mr. Hayes said.

He reminded Cook County motorists that they will encounter an early dusk when returning home from family dinners. Glazed roads may result if wet conditions meet near-freezing temperatures.

But speed, Mr. Hayes warned, is the greatest specter. A late start for home will cause some drivers to take chances they would ordinarily shun. Excessive speed is unwise at any time, to bad weather conditions make it doubly dangerous.

Mr. Hayes stressed three safeguards for Thanksgiving day travel:

1. Moderate speeds because of poor visibility and traction; 2. Extra margin for safety in passing if pavement is at all slippery; 3. Adequate ventilation. The threat of carbon monoxide poisoning becomes more imminent as colder weather shuts car windows tight. Window vents should be left slightly open even at zero temperatures.

Thomas L. Thomas To Give Concert In Joliet December 6

Thomas L. Thomas, celebrated baritone singing star, will present a concert December 6 in the Joliet Township High school auditorium under the auspices of the Joliet-Will County Civic Music association. The concert, scheduled to begin at 8:30 p. m., will be the second in a series of four arranged by the music group. The association includes members from all parts of Will county.

Other artists to be heard later in the season are Raymond Lewenthal, pianist, and the National Male quartet. The Bakaleinikoff Sinfonietta, with Dorothy Eustis as piano soloist, opened the series October 3.

Thomas's voice has been heard countless times on national broadcast radio programs and probably is familiar to everyone in this area. This will be his first personal appearance in Will county, however. A native of Wales, he came to this country as a child and was educated in engineering. He worked only a short time as an engineer before he decided to make music a full-time career. He also considers himself a farmer, when he is not touring the country giving concerts, and lives on a 125 acre farm in New Jersey.

The Chicago Motor Club points out that traffic accidents cost U. S. motorists \$3,000,000,000 per year in losses.

About 150 friends and relatives attended the open house Sunday afternoon and evening in the home of Mr. and Mrs. Ivan Archibald in New Lenox. It was given in honor of their daughter Rosemary and her return from Ireland.

The home was decorated with fall flowers. The Irish motif was carried out in the decorations. The dining table was laid with an Irish linen cloth; a Sterling silver lazy susan filled with decorated cookies filled high in the center with green iced cookies, centered the table.

On the buffet was a boat shaped bowl filled with white 'mums' and matching candelabra with green candles.

GRADE 6

Donald Lehmann and Roger Swart have been attending a Junior Forestry class at the Morton arboretum for the past month. On Friday mornings they have been giving excellent reports to the class on their experiences. They have shown us how to do tree surgery, grafting, how to determine the age of a tree and last week they performed an experiment demonstrating how the top soil is washed away by rain if all shrubs and plant life are cleared off the land. The class is working on leaf booklets with the boys. At the end of the 10 week session the boys and their class members hope to complete all the requirements satisfactorily, so as to receive the tree for our school yard that the arboretum is offering.

Our class gave an assembly program in October in honor of Columbus Day. They presented a pictorial story of Columbus and closed the program with two songs, "I Love Geography" and "America."

Tommy and Teddy Dunham and Penny Spiewak are attending art classes that are sponsored by the Joliet Artists League. Students with artistic talent are recommended to the class by their teacher.

We are studying about people of other lands. We call our program "Our Friends." Every Monday morning one of the class members gives a report on one of our friends in other lands.

Leonard Hemmrich, Billy Westman, Lavonne Erdmann, Sheila Bennett, Delbert Yunker, Tommy Dunham, Dick Hamilton, Kathryn Cooper and Linda Sue Powers have given reports.

We think our "Know Your World Poster" is a good reminder to us to do as much reading as possible. Penny Spiewak made the poster.

Joe Sluis is a new student in our room. Joe was born in Holland and lived there until he was eight years of age. We are happy to have Joe with us.

Our room completed nut cups and favors for the Junior Red Cross recently.

Pupils receiving the following number of 100's in spelling thus far this year are: Sheila Bennett 4; Susan Benson, 6; Kathryn Cooper, 8; Richard DeForest, 1; Barbara Duerr, 1; Theodore Dunham, 10; Thomas Dunham, 10; Lavonne Erdmann, 3; Donna Heinecke, 3; Leonard Hemmrich 3; Carol Eichenstein, 8; Donald Senglin, 6; Joe Sluis, 4; Penelope Spiewak, 9; Roger Swart, 5; Billy Westman, 1; Delbert Yunker, 1 and Robert Yunker, 2.

We are enjoying our new Reading Circle books. Ever though most of us watch Television, we also enjoy good reading.

Second Grade

The 30 pupils in this room have been studying about the proper care of teeth in Health class. We have tooth inspection each morning, and the children having clean shining teeth get a gold star. To make us tooth conscious we have drawn characters that represent tooth brushes, a clean tooth, and vegetable and fruit cleansers. We have also learned tooth brush songs.

In our number work each day we have a fun contest lasting about five minutes. In this contest we have rapid drill of the addition facts we have learned. The child who reaches the front seat is either the King or Queen and gets to wear the crown. We have also been learning how to tell time and have made pictures of clocks which we have placed on the bulletin board.

We have been writing sentences in our language class. We know now that all sentences start with capital letters, telling sentences end with periods, and asking sentences end with question marks.

TO VOTE ON 2 1-4 MILLION DOLLAR BOND ISSUE

County Superintendent of schools Louis Bottino, has approved a petition filed several months ago, to hold an election to vote on forming a Joliet community school unit school district, according to the superintendent, is one wherein one board supervises all public school affairs within the district.

The proposed district would include all of Joliet and Jackson townships, a part of Troy township, now classed as non-high, and a portion of Channahon township. According to the law a unit district can have a tax rate of 1.77%, for educational purposes on approval of the voters, and an additional tax, if necessary can be voted for the support of a junior college.

A 2 1-4 million dollar bond issue will be voted on Saturday, December 1, for the purpose of expanding the facilities of the Joliet Township High school. The school officials hope to pass the bond issue to buy additional property east of the present school building, to be used to add buildings, and to install a new heating system and enlarge other facilities of the school.

Superintendent of the school, Hugh S. Bonar, read letters before the high school board, from two officials of the office of state superintendent of public instruction. They had visited the school and, quoting, wrote of the school, "vocational facilities are inadequate and disturbing," and described the vocational agricultural facilities as "deplorable and unbalanced."

Reunion in Joliet

Twenty years ago two stage-struck youngsters studied dramatics together in Lafayette, Indiana. Now grown up, with families of their own, Karl Mueller and Mrs. Jane Schlottterer will share the love interest in "The Heiress," the Joliet "Y" Players presentation to open Tuesday, November 27, for a four-night run.

Jane Schlottterer, who will play the title role of the unhappy

heirress, received her first taste of the theater while attending dramatics classes in Lafayette, Ind., the home of a former motion picture actress, Mary Harriet, actress who, with her husband, Floyd C. Mueller, a former Hollywood art director, founded the Lafayette Little Theater. The Muellers' son Karl, also a dramatics aspirant, studied lines with Jane in several plays until they went off to college. There they lost contact with one another until this fall when Mrs. Schlottterer, now a New Lenox resident, learned that Mueller had recently moved to Joliet. The role of the handsome fortune-hunting suitor in "The Heiress" had not been assigned and that Mueller got the part.

Tickets for "The Heiress" may be reserved by sending a check or money order to "Y" Players Box Office, 215 N. Ottawa street, Joliet.

during the study of the social study unit about American Indians. The Indian assembly afforded a fitting and interesting correlation for this unit.

Also the study of mammals and reptiles of now and long ago challenged them to "want to find out." Murals were drawn and individual booklets were made as self-expression work for the two units.

Lately the fourth grade has shown much interest in the study of Africa. The drawing of maps by using the slide projector has given them accurate information regarding the shape of the continent and the location of the Sahara desert, the Nile river, the equator and other important points of interest.

Boys and girls of our room made 24 Thanksgiving tray covers and nut cups, as a part of our Junior Red Cross contribution.

The new state Reading Circle books provided for us by our Board of Education are being greatly enjoyed. Several children have completed the reading circle work for the year, as well as having a sizeable list of "books read" in his own individual "reading record book."

New Booklet on Illinois Judicial, Cong. Districts

Secretary of State Edward J. Barrett today released a new booklet which provides the lat-

est data on Illinois judicial, congressional and senatorial districts. Included is the new map of the 1951 General Assembly re-apportionment of the state's congressional districts and a ready reference breakdown of counties listing the county seat

and the number of the judicial, congressional and senatorial district in which the county is located. Only change is in the congressional districts. Congress reduced the number of Illinois seats in the national House from 26 to 25, requiring that the state be reapportioned, Secretary Barrett said. The 1951 General Assembly re-divided the state into 25 districts, of which 12 are in downstate, 12 in Cook County and Chicago, with the remaining district embracing all of Lake County and the extreme north end of Cook Co.

"Just Been Thinkin'"

THANKSGIVING ON THE FARM

We picked the biggest punkin', Just my brother Tom and I. But we could hardly get it home For Ma to bake the pie.

Then Tommy got his knees all skinned From chasin' down the "turk"; 'Course, Dad's old hands are calloused red From all the harvest work ... And Mom, she's not much better off—

She's got her work to do: She's got to make the stuffin' And to roast the gobbler, too.

The kitchen smells so wonderful The cranberries and all Has Tom and me a-watchin' and Awaitin' dinner call.

Our mouths are waterin' to eat Thanksgiving' sure is fun Except it takes a long, long time To get the cookin' done.

Oh, boy! at last Mom rings the bell—

To us it seems so late That Tommy grabs a drumstick And starts drummin' on his plate

I take a dumplin' and a yam, My tummy says "Hooray" But Mom says, "Just a minute, boys, We first, of all, must pray!"

The calf was judged champion shorthorn steer at the Will county fair. Burton will also show an Angus steer named "Black Major" at Chicago. This calf was named grand champion steer at the Will county show.

Other Manhattan exhibitors will be Donna Rae Meyer, 11-year old exhibitor who will show two Herefords, named "Baby Snooks" and "Snooks", both calves won blue ribbons at the county 4H club fair; and Don Offerman who will exhibit his purebred Angus steer, "Wildfire."

Young livestock feeders of the nation have often showed up their elders in the International competition, exhibiting the grand champion steer of the show 11 times in the past 23 years.

INVENTIONS that serve you

Among the early American inventors who founded great industries, few struggled against adversity more desperately than Gail Borden (1801-1875), who was the first to obtain a patent (August 19, 1856) on a process for condensing milk. His first invention was a meat biscuit for which he was granted a prize at the International Exposition of London in 1851. Returning from London, he was anguished by the death of infants on the ship who had been fed milk from sick cows. As a result of this experience, he spent years of experimentation to invent a process that would preserve milk under wholesome conditions.

Prepared by NATIONAL PATENT COUNCIL Gary, Indiana

For many centuries there was little progress in artificial illumination. The jagged torch of the original cave man continued in use through the Middle Ages. Ancient cultures from 7000-8000 B.C. used some form of lamp. Candles were used in Biblical times. Pliny was first to report use of mineral oil for lamps in 50 A.D. Many scientists worked toward the development of an incandescent light during the nineteenth century. Lack of a suitable filament proved to be the stumbling block. Thomas A. Edison overcame this obstacle in 1879. He obtained a patent in January 1880 and sold his first lamps in May of that year. Progress in improved artificial light has been rapid since then, stimulated by the incentive of patent protection. The latest is a luminescent phosphor demonstrated recently in New York. It provides a glowing glass panel. The inventor claims that the "panel" system will materially cut the cost of home lighting.

Free Travel

By Gov't Available
For More People

New amendments to the federal
Missing Persons Act now
make transportation at govern-
ment expense available to fam-
ilies of Korean servicemen and
in some cases to dependents of
World War II servicemen who
may not have been eligible
earlier, according to Illinois Vet-
erans Commission Service Of-
ficer E. Merle Harrison.

Government-paid transporta-
tion is provided by the new act
for dependents and effects of
servicemen officially reported
dead, injured, missing for 30
days or more, interned in a neu-
tral country, or captured by the
enemy in Korean fighting.

But the legislation is not con-
fined to dependents of Korean
servicemen, Mr. Harrison em-
phasized, so that families of
World War II servicemen may
in some cases receive travel reim-
bursement that heretofore has
not been allowed.

For example, the new law
says a serviceman's official
death, injury, or missing status
need not have resulted directly
from military or naval opera-
tions. In addition, transporta-
tion of dependents or effects
may now be paid to a destina-

tion that is not the serviceman's
official residence of record so
long as it is shown to be a
"reasonable" destination.

Cost of travel already com-
pleted may be repaid to depen-
dents, and rejected claims can
now be re-submitted if they fall
under the new provisions.

Applications for travel or re-
imbursement should be made to
the branch of service concerned.
Full information and help in
filing dependents' travel claims
is available at the nearest Ser-
vice Office of the Illinois Vet-
erans Commission.

In Will county the service of-
ficer is E. Merle Harrison with
offices located at 4 East Clinton
street in Joliet, Ill.

Illinois Game Laws
The last session of the Illinois
General Assembly changed sev-
eral game laws. Here are the
most important changes and ad-
ditions:

1. Game animals are defined to
specifically include wild rabbit,
deer, fox, squirrel, gray squirrel,
and ground hog. Fur-bearing
animals are mink, muskrat, rac-
coon, skunk, weasel, opossum,
beaver, otter, badger, red and
gray fox.

2. The word "hunt" does not
include trapping, but does in-
clude any other means of taking
protected species.

3. The State Department of
Conservation may establish "pub-
lic hunting grounds" on state-
owned land and issue a daily
usage stamp for a fee of \$2.00
per day.

4. It is unlawful to hunt any
species of waterfowl from
"any fixed, floating or artifi-
cial blind, or ambush located out-
ward and beyond the lines of
the natural covering of any
form of vegetation above the
open waters of any lake, river,
bayou, or inlet, or other water-
course; but in such waters
where vegetation does not exist
above the water line a blind
may be located not more than
150 feet beyond the shoreline."

5. Destruction of the nest of
any bird protected by the Game
Code is unlawful.

6. Airguns were added to pis-
tols and rifles as unlawful
means of taking game birds or
migratory game birds.

7. It is unlawful to have in
possession a spade or digging
tool when attempting to take
any of the species protected by
the Game Code.

8. The April 1 to August 15
period, during which it is il-
legal to pursue any game for the
purpose of training dogs, is ex-
tended to October 1 for raccoon
hunting dogs. The ban is lifted
on squirrel dogs for any period
in which the squirrel season
may be open prior to August 15.

9. A wild pet permit may be
issued for a fee of \$1.00 to any-
one wishing to keep one wild
bird or wild animal in captivity
upon satisfactory proof that the
bird or animal was legally ac-
quired.

10. All game held in a locker
plant for storage shall be wrap-
ped and marked with the date
placed in storage, the species of
bird or animal and the patron's
locker number. Locker plant op-
erators are required to keep a
record book showing entries
and removals of wild game.

What's Ahead for Suburban Schools?

What's ahead for the suburban
schools, already so crowded as
to bring such headlines as
"School District Alarmed Over
Increasing Birth Rate?"

Prof. Edward F. Potthoff, di-
rector of the Bureau of Insti-
tutional Research at the Univer-
sity of Illinois, is one of the best
men to answer that question. He
recently made a n intensive
study of birth rates and school
enrollments in Illinois.

His data, filling a 145-page
mimeographed bulletin full of
charts and tables, covers the four
decades since 1909, and extends
the data to forecast probabilities
to 1975. Though he was inter-
ested primarily in high schools
and college, the facts can be ap-
plied also to the elementary
schools.

Three things affect the over-
all school picture: 1, percentage
of young people in school; 2,
birth rate; 3, population chang-
es.

The first hasn't been changing
much recently. The second rose
in Illinois from 80,000 new ba-
bies in 1900, to 150,000 for the
state in 1924; dropped to 113,000
in 1933; and soared to

The Missionary society will meet in the church Thursday, November 29, with Mrs. Frank Parker and Mrs. Edna Mergler as hostesses. A pot luck dinner will be served at noon, the hostesses will serve coffee and one other dish; all members will bring a dish to pass as usual.

Paula and Carroll Muehler of Mokena spent several days last week visiting their cousins, Barbara and Kaye Weis.

Mr. and Mrs. Joseph Mynarik and family were guests last Saturday evening in the home of Chicago relatives, at a party in honor of their son Martin who was celebrating his birthday.

Mesdames Marion Ziesmer, Owen Storm, Elwyn Cagwin, and Bruce Anderson attended a Royal Neighbors' convention at Frankfort last Monday afternoon and evening.

Mr. and Mrs. Charles Moody, Mr. and Mrs. A. C. Dunlap of Alton were week end guests of his sister, Mrs. Emma West and the Charles Jensen family.

Best truck service in town at— (NAME OF DEALER)

LET IT SNOW! LET IT BLOW!

A "WINTER-IZED" truck can take it and keep on rolling!

Trucks have to keep going—as long as the roads are open! The best way to protect your truck against the hazards of winter driving is to bring it in for our complete, bumper-to-bumper "Winter-izing" service.

We'll change the oil to a winter grade, of course. And we'll add antifreeze after cleaning out the cooling system. But we'll do much more. We'll go over the entire engine to

make sure it's running right. We'll lubricate the entire running gear with correct grade of lubricants and check the brakes and springs. And we'll be on the lookout for things that might cause trouble later on.

For the best "Winter-izing" job in town, bring your truck here!

P.S. We have a complete line of International-approved winter accessories, too.
